

Chambers® **STRONG-ARM**

CMF24B METAL FOLDER

OPERATION INSTRUCTIONS

Please read these instructions before using your metal folder.

Note: The folding surfaces should be oiled regularly to prevent rusting.

1. Screw the two red handles tightly into the threaded sockets.
2. Mount the Metal Folder In a good strong bench vice with the red handles pointing towards you. Tighten the vice to secure the Metal Folder.
3. Insert a test piece of sheet metal in the folder, tighten the two clamps to secure this piece and raise the two red handles to create a fold. From this test, you will see how and where the fold appears and will be better able to obtain an accurate fold.
4. Do not attempt to fold a sheet thicker than 22 gauge.
5. Approved safety glasses or goggles should be worn when using this folder.

PARTS AND SERVICE

Should any parts require replacement please contact our Parts Department on 0208-988-7400
