Our products are designed to be used correctly and with care for the purpose for which they are intended. No liability is accepted by the Tool Connection for incorrect use of any of our products, and the Tool Connection cannot be held responsible for any damage to personnel, property or equipment when using the tools. Incorrect use will also invalidate the warranty.

Description

The kit is made up of a set of cleverly designed hexagon bolt and nut extractor adaptor caps. The caps fit over the rounded off fixing and allow a standard 12 point socket or ring wrench to be used to remove the rounded off hexagon fitting.

Note: Due to the method of use and the material requirements of the 7524 kit the adaptors are considered consumable.
