12" PLATE AXIAL EXHAUST FAN MODEL NO: CAF12

PART NO: 3230490

OPERATION & MAINTENANCE INSTRUCTIONS

UK
CA | CE

ORIGINAL INSTRUCTIONS

DL0726 Rev 1

INTRODUCTION

Thank you for purchasing this CLARKE Plate Axial Exhaust Fan.

Before attempting to use this product, please read this manual thoroughly and follow the instructions carefully. In doing so you will ensure the safety of yourself and that of others around you, and you can look forward to your purchase giving you long and satisfactory service.

GUARANTEE

This product is guaranteed against faulty manufacture for a period of 12 months from the date of purchase. Please keep your receipt which will be required as proof of purchase.

This guarantee is invalid if the product is found to have been abused or tampered with in any way, or not used for the purpose for which it was intended.

Faulty goods should be returned to their place of purchase, no product can be returned to us without prior permission.

This guarantee does not effect your statutory rights.

ENVIRONMENTAL RECYCLING POLICY

Through purchase of this product, the customer is taking on the obligation to deal with the WEEE in accordance with the WEEE regulations in relation to the treatment, recycling & recovery and environmentally sound disposal of the WEEE.

In effect, this means that this product must not be disposed of with general household waste. It must be disposed of according to the laws governing Waste Electrical and Electronic Equipment (WEEE) at a recognized disposal facility.

At the end of its working life, do not dispose of this product or its components with general household waste. Any tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of appropriately.

GENERAL SAFETY WARNINGS

NOTE: This product **DOES NOT** come with a plug, for electrical connectivity please consult pages 4-5 of this manual.

1. Please keep these instructions in a safe place for future reference.
2. **NEVER** carry out any alterations or modifications to this product.
3. **NEVER** carry out any maintenance on this product unless the power has been isolated.
4. Inspect the power cable and plug (if used) for damage and ensure that no connections are loose. **DO NOT** use this unit if it has a damaged supply cable. Any damage should be properly repaired or the part replaced.
5. **DO NOT** use an adaptor plug with earthed (grounded) appliances. Correct plugs and outlets will reduce the risk of electric shock.
6. Position the power cable so that it cannot be inadvertently pulled or pinched and where it does not cause a trip hazard.
7. **NEVER** abuse the mains cable or wrench the cable to disconnect it from the socket. Keep the cable away from sharp edges or hot surfaces.
8. **NEVER** insert anything into the fan grille, unless the power has been isolated.
9. Store or install this product in a dry and secure place out of reach of children.

LOCATION

1. To achieve air extraction from the building, the fan must be installed on the inside of an exterior wall with the motor inside the building, as shown.
2. The fan must be installed no lower than 3 metres from the bottom of the fan to the floor.
3. The fan is principally designed to be installed on the inside of an external wall. If needed provision should be taken to protect the fan, the motor and all parts from the elements by installing a louvre vent on the external side of the wall, see page 5 of this manual.

ELECTRICAL CONNECTIONS

WARNING: READ THESE ELECTRICAL SAFETY INSTRUCTIONS THOROUGHLY BEFORE CONNECTING THE PRODUCT TO THE MAINS SUPPLY.

Before switching the product on, make sure that the voltage of your electricity supply is the same as that indicated on the rating plate. This product is designed to operate on 230VAC 50Hz. Connecting it to any other power source may cause damage.

This product can be used with either a standard plug or a fused connection unit (FCU). If it is necessary to change the fuse in the plug or FCU, the fuse cover must be refitted. If the fuse cover becomes lost or damaged, the plug or FCU must not be used until a suitable replacement is obtained.

If the plug has to be changed because it is not suitable for your socket, or due to damage, a replacement should be fitted, following the wiring instructions shown on page 5. The old plug must be disposed of safely, as insertion into a mains socket could cause an electrical hazard.

If the colours of the wires in the power cable of this product do not correspond with the markings on the terminals of your plug or spur, proceed as follows.

- The **Blue** wire must be connected to the terminal which is marked **N** or coloured **Black**.
- The **Brown** wire must be connected to the terminal which is marked **L** or coloured **Red**.
- The **Yellow and Green** wire must be connected to the terminal which is marked **E**, $\perp$ or coloured **Green**.

Fused Connection Unit (FCU) must be BS1363/4 approved.

Ensure that the outer sheath of the cable is firmly held by the clamp

Plug must be BS1363/A approved.

Ensure that the outer sheath of the cable is firmly held by the clamp

If in any doubt, consult a qualified electrician.

INSTALLATION

1. Before installation, ensure that the impeller has not been damaged or distorted during transit.
2. Check that the impeller rotates freely and is secured tightly to the shaft. If the tip clearance of the blades is not sufficient slacken the motor bolts and re-align.
3. Mount the fan securely using 4 bolt/screw holes provided in the outer casing. Using the other 4 bolt holes and appropriate length bolts, the fan can be aligned and secured with the corresponding sized external louvre vent (see below).
4. Ensure that the installation is free from any vibration which could damage the impeller or motor bearings.
5. Ensure that when installed the impeller side of the fan cannot be touched.
6. For safety and security a Louvre shutter/vent should be installed on the external wall. These can be purchased from your local CLARKE retailer.

MODEL NO.	DESCRIPTION	PART NO.	
CL12	12" Louvre Vent	3230494	
CL16	16" Louvre Vent	3230495	
CL20	20" Louvre Vent	3230496	
CL24	24" Louvre Vent	3230497	

7. Refer to the section on electrical connection on pages 4-5 for guidance on wiring. If in any doubt, consult a qualified electrician.

MAINTENANCE

Before carrying out any maintenance, always make sure that the power has been isolated.

1. Check that the impeller and motor bolts and nuts are fully tightened within the first 100 hours of use and periodically after this.
2. Ensure that the impeller, motor and fan housing are kept clean. This is important for the ongoing safe use of this fan.
3. Periodically check that the fan installation is free from corrosion.
4. If not installed, store in a dry place protected from the weather.
5. **DO NOT** attempt any repairs yourself, always consult a qualified electrician or contact the CLARKE service department.

Your CLARKE fan has been designed to give long and trouble free service. If, however, having followed the instructions in this booklet carefully, you encounter problems, take the unit to your local CLARKE dealer.

TECHNICAL DATA

Model	A	B	C	D	E	F	G	H
CAF12	400mm	350mm	130mm	10mm	10mm	177mm	150mm	60mm

DIAGRAM

No	Part	No	Part
1	Screw	5	Impeller
2	Safety Grille	6	Motor Screw
3	Frame	7	Safety Grille
4	Impeller Screw	8	Motor

TECHNICAL SPECIFICATION

Model	CAF12
Impeller Size	300mm (12")
Voltage/Frequency	230 Volts/50 Hz
Power Cable	3 Core x 1.0mm ² x 1.5m
Electrical Insulation Class	Class I
Speed	1400 rpm
Power Input	80 Watts
Rated Input Ampage	0.35A
Service Value	0.4m ³ /min/W
Standby Power Consumption	N/A
Fan Sound Power Level	54dB (A)
Maximum Air Velocity	2m
Airflow at Optimum Energy Efficiency	30m ³ /min
Static Pressure at Optimum Efficiency	45pa
Operating Temperature	-15°C ~ 40°C (5°F ~ 104°F)
Weight	5.85 kg
IP Rating	IP54

DECLARATION OF CONFORMITY - UKCA

A SELECTION FROM THE VAST RANGE OF

Clarke®

QUALITY PRODUCTS

AIR COMPRESSORS
From DIY to industrial, Plus air tools, spray guns and accessories.

GENERATORS
Prime duty or emergency standby for business, home and leisure.

POWER WASHERS
Hot and cold, electric and engine driven - we have what you need

WELDERS
Mig, Arc, Tig and Spot. From DIY to auto/industrial.

METALWORKING
Drills, grinders and saws for DIY and professional use.

WOODWORKING
Saws, sanders, lathes, mortisers and dust extraction.

HYDRAULICS
Cranes, body repair kits, transmission jacks for all types of workshop use.

WATER PUMPS
Submersible, electric and engine driven for DIY, agriculture and industry.

POWERTOOLS
Angle grinders, cordless drill sets, saws and sanders.

STARTERS/CHARGERS
All sizes for car and commercial use.
