ASSEMBLY

1. Make up the front frame by connecting the two legs, a long spreader bar, and the long shelf support as shown. Fix them together using the bolts, nuts and spring washers.
 - The nut and spring washer should be on the inside of the completed frame
 - Do not fully tighten the nuts and bolts at this stage.
2. Make up the rear frame in the same way.

3. Join the two frames using the two short shelf supports and two short spreader bars, again fixing them together using the bolts, nuts and spring washers.

4. Place the two shelves into position.
5. Fit the feet to the end of each leg.

6. Place the the top panels on to the short spreader bars as shown, set to the required distance apart and fix in position using the screws and washers supplied.
 - The screws are inserted from below through the short spreader bars into the top panels.
7. Tighten up all the nuts, bolts and screws. The tool stand is now ready for use.
