COMPONENTS

1

2

3

4

5

6

7

8

9

10

1	1 x Wheel	6	1 x Bucket Support Bar
2	1 x Front Frame Section	7	1 x Wheel Axle
3	2 x Rear Frame Handles	8	2 x Wheel Supports
4	1 x Bucket	9	6 x Large Bolt, Nut & Washers
5	2 x Front Support Bars	10	6 x Small Bolt, Nut & Washers

ASSEMBLY

NOTE: Hand tighten all bolts & nuts until the product is fully assembled.

1) Insert the rear frame handles (3) into the front frame section (2), aligning the holes and secure with a large bolt, nut & washers (9)

2) Fix the bucket support bar (6) between the rear frame handles (3) using a large bolt, nut & washers (9)

3) Align the bucket (4) against the frame. Secure the bucket to the frame using the small bolts, nuts & washers (10) through the 4 holes in the bottom of the bucket.

4) Attach the front support bars (5) to the remaining holes in the bucket using the small bolts, nuts & washers (10).
* = The right angle sides should fit against the frame, do not attach at this stage.

5) Using a large bolt, nut & washers (9), thread the bolt through the front support bar (5), the frame and the wheel support (8) and secure with the nut. Only do this for one side.

6) Fix the axle (7) through the wheel (1). Slide the axle into the wheel support (8) secured to the frame. Fit the second wheel support, making sure the wheel and axle are supported on both sides before fixing with a nut. Tighten all bolts and nuts fully.
